

Why FCCI?

- Because leading a company and conducting your personal life according to Biblical principles is challenging as a Christian business leader. Servant leadership isn't easy.
- Because we were never meant to follow Jesus in just "certain areas" of our lives. Instead, we are to pick up our cross daily and follow Him
- Because there was never meant to be a division between "personal faith" and "business" for the Christian business leader
- Because God owns it all, and as a Christian business leader, He calls us to steward His company. Our natural tendency is to look at the company we lead as "ours", or as belonging to "the shareholders"
- Because you aren't meant to go it alone. It takes encouragement and equipping to lead God's way
